

THE BEST CORROSION CONTROL PERFORMANCE, GUARANTEED!

Termarust Technologies Product Major Points of Difference

1. Termazinc TZ1100 Galvarust Zinc Flake Coating

- Unique in that we use a low ratio of zinc metal compared to traditional zinc coatings with no effect on the long term performance of the coating
- Allows direct to rust application with an increase in performance and dramatically reduced surface preparation costs
- Can restore a failed galvanized finish at a fraction of the cost of replacement.
- Is available in most resin systems so the technology can be tailored to a customers specific needs
- Waterbased technology is available
- Zinc Flake Pigment is manufactured on sight
